

L.O. I know how ancient Egyptians prepared a mummy for the afterlife

*ORDER THE TEXT, CUT OUT AND STICK IN YOUR BOOKS*

- After the body has been wrapped in linen, place the mummy mask over the face area.
- Next insert a hook through the nose and remove the brain. Fill the skull with sawdust or resin.
- First wash the body with natron salt and water and take it into a mud bricked building called a wabet.
- When the organs are dried, wrap them in linen and place in 4 canopic jars.
- After the 40 days, remove the natron and seal the cuts with wax or resin.

*HOW TO MAKE A MUMMY AS THE ANCIENT EGYPTIANS DID*

- *Then make a cut on the left side and remove all internal body organs except the heart. Put in natron salt to dry.*
- Wash the body once again with palm wine and cover with natron salt. Leave it to dry for 40 days.
- Now pack the body with straw or dried grass.

**Items needed:**

Natron salt,  
Palm wine and water,  
Linen bandages,  
Hook,

Resin,  
Straw or dried grass,  
Cutting tool,  
Sarcophagus

- Finally, place the mummy in a sarcophagus and move to the pyramid.
- Now cover the whole body in resin and wrap it in linen fabric.
