

Year 6 School Closure work w/b 11th May 2020

Here you will find the learning for this week. Don't forget, if you don't have access to a printer, please use the blue books provided for the children to complete their work in.

It would be great if you could regularly update your portfolio on Class Dojo so we can see all the things that you are doing – both school related and not! You should now have received your individual codes to upload onto your portfolios.

If you have any issues with this then please contact your child's class teacher.

Many thanks,
Miss Froggatt & Mr Whitbread

Maths

This week's maths is based around fractions. We have done this quite a bit in school so the children should be quite confident with this.

You will find daily lessons (along with answers) in this week's folder on the school website.

The children should work through each of these, in turn. You will also find the answers in the same folder should you want to go through them.

Teaching videos are available at <https://whiterosemaths.com/homelearning/year-6/>

For those who are needing a little more support, there are some slightly simpler fraction worksheets saved in the folder too.

For those of you who would like a bit more challenge, I suggest looking up the White Rose Problems of the Day. We have done a few of these in school and these are excellent questions to challenge the children's problem-solving skills.

<https://whiterosemaths.com/resources/classroom-resources/problems/page/5/>

Other challenges to have a go at:

Explain the mistake

$$\frac{3}{4} \times 5 = \frac{15}{20}$$

Rank by difficulty

$$\frac{1}{4} \times 5$$

$$\frac{3}{10} \times 3$$

$$\frac{3}{4} \times 3$$

How many ways?

$$\frac{\square}{4} \times \square = 3 \frac{3}{4}$$

Level 1: I can find a way

Level 2: I can find different ways

Level 3: I know how many ways there are

Reading

Saved in this folder is a reading comprehension activity on Ramadan. This contains three different levels of questions, so you and your child can choose the level that best suits them.

Writing

Genre focus: Information leaflet

<https://www.thenational.academy/online-classroom/year-6/english#subjects>

Oak Academy have a brilliant unit of work designed to help you write an effective information leaflet. There are 5 sessions, all with helpful videos attached, guiding you through the process.

It starts with a reading focus lesson which you can find here

<https://www.thenational.academy/year-6/english/information-leaflet-lesson-1-reading-focus-year-6-wk2-1>

and then there are four more sessions which follow on.

You can choose a topic you are interested in to create your own information leaflet.

Spelling

This week's spelling words all have double consonants.

Week 5
Double consonants
accommodate accommodation aggressive embarrass apparatus success successfully willingness worthlessness happiness

Humanities – The Ancient Maya

This week we are looking at the creation story according to the Maya. Your task this week is to read through the Maya creation story, then create your own creation story using the God you designed last week.

Science

As we are studying evolution, it is important we look into Charles Darwin who is thought as the creator of the evolution theory. Read through the Charles Darwin PowerPoint and complete some independent research to complete the Charles Darwin activity sheet which is also saved on the website.
