

Dear 3 Oak and 3 Ash,

I hope you all had a lovely weekend. What amazing weather we had last week! It was a little too hot for me but it was great to see photos of so many of you enjoying it. It was also great to see you enjoying the virtual Sports Day activities – it looked like you really enjoyed it.

For the week beginning 29th June, please continue with the Trolls Unit – some of you may be doing less/more than what we are “setting” so please feel free to work through this at a pace that suits you. As always, if you can, try to use some of the new words you came across in last week’s tasks in these week’s tasks. There is also a unit called ‘Lockdown’ which you can start as soon as you have finished the Trolls unit.

I have also uploaded a VE Day comprehension. There are 3 different levels (1 star – 3 star). Have a look at each set of questions and choose which one you think would be most appropriate. Alternatively, send me a message and I can tell you which one to have a go at.

The White Rose Maths for this week is all uploaded to the website folder for this week’s learning, along with the answer sheets. Please remind your child to show their work rather than doing everything in their head. Not only does this avoid mistakes being made, in a test, if they got the working out correct but the answer wrong, they may still get a mark for showing the correct

method. There are also videos for each of these lessons which have also been uploaded to the website.

Look forward to hearing from you all again this week.

Best wishes,

Miss Dakers and Miss Baillie
