Reading	Maths Fluency	Spelling
<p>Read for 30 minutes every day. It could be an appropriate magazine, newspaper, website, game instructions or a favourite book from home etc. Remember you could read to a sibling or have family reading time. Get the duvets out, build a den and have bedtime stories at any point in the day! With permission, you could also read to a friend or family member on the phone.</p>	<p>This week's focus is the 4 times table. Learning your times tables is essential!</p> <p>This game is a great way of practising – 10 minutes a day focussing just on times tables will help you so much. https://www.topmarks.co.uk/maths-games/daily10</p> <p>I would have a look through the different levels until you find one you think is most suitable. I would suggest at least level 3 to begin with and then choose multiplication. You can then do a single set of times tables or mix them up. By the end of Year 3, you should know your 3x, 4x and 8x tables as well as your 2x, 5x and 10x tables from Year 2.</p> <p>Follow this link and it will give you a number of different games to play to practise multiplication. https://www.topmarks.co.uk/maths-games/7-11-years/multiplication-and-division</p>	<p>Choose 10 words from the Year 3 and 4 spelling list in your reading diary. Practise the spellings every day for the week. You may want to be tested on Friday to see how well you've learnt them. If you get some wrong, add them to next week's list and have another go. If these words are too tricky, try the KS1 common exception words first.</p> <p>Words of the week: <i>Superior, exaggerate and phenomenal</i></p> <p>Can you find out what they mean – try writing them into a sentence. Challenge: Can you drop the words into a conversation with your family?</p>
<p>Writing</p>	<p>Maths</p>	<p>Topic</p>
<p><u>Reading comprehension- language</u></p> <p>Here are the links to your English lessons:</p>	<p><u>White Rose Maths</u></p> <p>This week, we are re-visiting fractions using White Rose Maths. All the work has been uploaded to the</p>	<p><u>History</u></p> <p>Mining</p>

<p>https://classroom.thenational.academy/lessons/reading-comprehension-fact-retrieval-573214</p> <p>https://classroom.thenational.academy/lessons/character-description-reading-comprehension-language/</p> <p>https://classroom.thenational.academy/lessons/identifying-the-features-of-a-text-a559ca</p> <p>https://classroom.thenational.academy/lessons/spag-focus-adverbials-570003</p> <p>https://classroom.thenational.academy/lessons/to-write-a-non-chronological-report</p>	<p>website along with the lesson videos and answer sheets.</p> <p>Fractions can be a tricky concept of maths to grasp. It is fine for you to just have a go at the bits you think you can do, don't pressure yourself to do all of it if you know it's going to be tricky. I will be available via dojo to help if you need it.</p>	<p>This week we are going to focus on the mining industry and everything good and bad it brought with it.</p> <p>Today we are going to look at how coal is mined.</p> <p>Use this link to help you: file:///hf-vm-1s01/mlarcombe\$/Downloads/How_is_coal_mined.pdf</p> <p>Create a poster explaining the different ways that coal is mined. Use pictures to illustrate each point.</p> <p style="text-align: center;">Music</p>
<p>Play the video, complete the activities and make your way through the lesson. Remember, you can pause the video at any point! When you have completed the lesson, take the quiz to see how much you have remembered. We would love to hear from you as to how you are getting on and to answer any questions you may have. Just email your class teacher.</p>		<p>Have a look at the file 'In Every Way'. Have a go at learning the song and following the activities provided.</p>
